Berlin/Düsseldorf, October 2022

Dear Employers,

Dear Heads of Agency, Dear Superiors,

The INVICTUS GAMES 2023, taking place from 9 to 16 September 2023, will be an international celebration of optimism and inspiration with a focus on professional sports. The Games will bring together active and former servicemen and women from 23 countries who have been wounded or affected by injury or illness, their families and friends and the spectators in an impressive atmosphere of appreciation and respect.

The City of Düsseldorf and the members of the Bundeswehr look forward to meeting the international INVICTUS GAMES Community, and to a very special event with the motto 'A HOME FOR RESPECT.'

To be able to stage this event, we will require the active support of over 1,000 volunteers, both for the preparations and during the Games.

As the face of the Games, these Volunteers will be distinctive representatives of the INVICTUS GAMES DÜSSELDORF over the next year. Their manner, their politeness, their personal commitment, their friendliness and their helpfulness will make a decisive contribution to the success of the Games.

Please support this unique sports event by allowing interested members of your staff to participate in the INVICTUS GAMES 2023 as volunteers. By doing so, you too will show your appreciation for our wounded, injured or sick servicemen and women, who lost their health while serving their country.

Thank you very much!

Siemtje Möller,

Dr Stephan Keller
